This is the sample!

This is a place to get started.

Here's a sample question.

Problem 1 Multiple Choice:

- (a) Incorrect
- (b) Not this one!
- (c) Click here? ✓
- (d) Not me!

Problem 2 You can test that $x + x = \boxed{2x}$ or that $x \cdot x = \boxed{x^2}$.

Problem 3 The tolerance 0.01 means $\pi \approx \boxed{3.141592653}$

Problem 4 The tolerance 17 means $3421 \approx \boxed{3421}$

Problem 5 Which graph is $y = x^2$?

Graph of x^2

Multiple Choice:

- (a) Graph of $y = x$
- (b) Graph of $y = x^2$

✓

Learning outcomes:

This is the sample!

(c)

Graph of $y = x^3$

(d)

Graph of $y = 1/x$

Example 1. *Display a table*

Explanation.

$xy \quad x \quad y \quad yx$
